BHAVESH BAROT

Mobile Architect | Technical Lead | React Native / Flutter / iOS Specialist

+91 97246 67687 | bhaveshbarot01@gmail.com | Ahmedabad, India
LinkedIn: linkedin.com/in/bhavesh-barot-b0a164184 | GitHub: github.com/bhavesh2706 | Portfolio: bhavesh2706.github.io/portfolio

PROFESSIONAL SUMMARY

Mobile Architect and Technical Lead with **11+ years of experience** designing, building, and scaling high-performance **React Native, iOS, Flutter, and tvOS applications** across healthcare, fintech, media, consumer, and enterprise domains. Shipped **40+ production applications** built on **clean architecture, offline-first systems, real-time synchronization, CI/CD automation**, and **AI-assisted engineering**. Led cross-functional teams of **6–8 engineers**, conducted **50+ architecture reviews**, and sustained a **98% on-time delivery** track record.

TECHNICAL SKILLS

Cross-Platform:	**React Native, Flutter, Dart, TypeScript**
Native iOS:	**Swift, Objective-C, UIKit, AVFoundation, tvOS**
State & Architecture:	**Redux Toolkit, MVVM, Clean Architecture, Modular Architecture**
Backend & Data:	**Firebase, REST APIs, WebSockets, Offline-First Design, Real-Time Sync**
DevOps & CI/CD:	**Fastlane, GitHub Actions**
Telecom:	**SIP, VoIP**
Leadership:	**Code Review, Team Leadership, Mentoring, Architecture Review, Sprint Planning**
AI-Assisted Tools:	**ChatGPT, Cursor AI, GitHub Copilot, Claude Code AI**

ADDITIONAL INFORMATION

Total Experience:	**11+ years**
Apps Shipped:	**40+ production applications**
Domains:	Healthcare, Fintech, Media, Consumer, Enterprise
Languages:	**English** (Professional Working), **Hindi** (Native), **Gujarati** (Native)

PROFESSIONAL EXPERIENCE

Mobile Architect | Technical Lead | Saeculum Solutions Pvt Ltd

Feb 2022 – Present | Ahmedabad, India

- Directed architecture and delivery of **10+ cross-platform applications** using **React Native, iOS, and Flutter** for enterprise clients
- Designed modular, **offline-first data layers** improving sync reliability for **100,000+ records** across multiple workflows
- Introduced **AI-assisted engineering practices** reducing feature delivery time by **35%** while maintaining **95%+** code quality standards
- Implemented **Fastlane and GitHub Actions CI/CD pipelines** automating releases for **10+ iOS and Android applications**
- Led and mentored a team of **6–8 engineers**, conducted **50+ architecture and code reviews**, improving sprint predictability by **40%**
- Architected enterprise ticketing and communication platforms handling bulk messaging, real-time analytics, and collaboration for **50,000+ users**

Senior iOS & Flutter Developer | ADSquare Technology Pvt Ltd

Oct 2020 – Feb 2022 | Ahmedabad, India

- Built and supported **3 production iOS and Flutter applications** with APNs and FCM notification infrastructure serving **20,000+ users**
- Improved user engagement by **25%** through onboarding flow enhancements and push notification optimization strategies
- Performed **50+ peer code reviews**, reducing recurring defects by **30%** and strengthening code consistency across teams
- Upheld a **90% client satisfaction rate** through weekly progress updates, rapid feedback loops, and on-time milestone delivery

Senior iOS Developer | Pacific Global Solutions

Nov 2018 – Oct 2020 | Ahmedabad, India

- Engineered **2 flagship iOS applications** using **Swift and UIKit** for enterprise-scale deployments with **15,000+ active users**
- Reduced app load time by **20%** through memory profiling, API response caching, and background task optimization techniques

- Increased post-launch user retention by **15%** by refining navigation flows, improving feature responsiveness, and reducing crash rates by **40%**
- Coordinated a **3-member iOS development team** and achieved **100% on-time delivery** across **8 major release cycles**

Senior iOS Developer | Ecosmob Technologies Pvt Ltd

Jan 2018 – Oct 2018 | Ahmedabad, India

- Completed **6+ iOS release cycles** at **98% delivery accuracy** through milestone-driven execution and agile sprint planning
- Prepared detailed technical specifications for **3 client projects**, reducing scope changes by **25%** and improving stakeholder clarity
- Contributed to a **tvOS application for Apple TV**, optimizing large-screen navigation and reducing frame drops by **35%**
- Enabled **SIP and VoIP mobile communication features**, enhancing real-time mobile interaction capabilities for **5,000+ users**

iOS Developer | Harmis Technology

Jul 2015 – Jan 2018 | Ahmedabad, India

- Developed **8+ native iOS applications** using **Objective-C and Swift** with custom UI components and animations
- Integrated RESTful APIs and optimized networking layers, reducing API response latency by **30%** across all applications
- Resolved core debugging and crash-analytics issues, achieving **99.5% crash-free sessions**, and maintained comprehensive technical documentation

KEY PROJECTS

OTT & Streaming Platform

Tech Stack: Swift, AVFoundation, DRM, AirPlay, Chromecast

- Architected high-performance streaming application with **DRM protection** and multi-device casting supporting **25,000+ concurrent users**

Healthcare Management Platform

Tech Stack: React Native, Firebase, Real-Time Sync, iPad

- Built healthcare platform with real-time data synchronization for **500+ iPad deployments** across **12 medical facilities**

Offline-First Inspection System

Tech Stack: React Native, Conflict Resolution, Analytics

- Developed field inspection system with offline capability and automated conflict resolution processing **10,000+ inspections monthly**

Enterprise Messaging & Collaboration

Tech Stack: Bulk Messaging, Analytics, Collaboration

- Launched enterprise-grade communication platform (NDA protected) handling **1M+ messages daily** with real-time analytics dashboard

OPEN SOURCE CONTRIBUTIONS

@bhavesh2706/react-native-smart-image

- High-performance React Native image component

react-native-smart-dropdown

- Lightweight, customizable React Native dropdown package

react-native-smart-otp

- OTP and authentication UI component with autofill support

EDUCATION

Master of Computer Applications (MCA) | Master's equivalent

Government Engineering College, Ajmer, India | 2012 – 2015
